---

Summary

Middle Frontend Engineer with 2.5+ years of experience building high-performance React.js and Next.js applications for enterprise and e-commerce platforms. Skilled in scalable, multilingual solutions, responsive design, state management with Redux Toolkit, and integrating RESTful APIs. Experienced in delivering POS, LMS, ERP, and E-commerce solutions with a focus on performance and user experience.

Skills & Expertise

Core Development: JavaScript (ES6+), TypeScript, React.js, Next.js (App Router), HTML5, CSS3.

Styling & UI: Tailwind CSS, Sass/SCSS, Bootstrap, Material UI (MUI), Responsive Design.

State Management & Data: Redux Toolkit, TanStack Query (React Query), RESTful APIs Integration.

Tools & Version Control: Git, GitHub, Unit Testing (Jest), Formik & Yup, i18next (Multi-language).

Specialized Expertise: GSAP & Framer Motion (Animations), Three.js, SEO Optimization, Excel/PDF Export.

Experience

Branmarks – Frontend Developer | *June 2023 – March 2025*

- Leading development of POS & enterprise solutions using Next.js & React
- Reduced page load times by 30% via Next.js optimization

Nosoqq – Frontend Developer (Freelance) | *Nov 2023 – Jan 2025*

- Delivered large-scale E-commerce projects (Moscow & Paris)
- Increased mobile engagement by 60% through responsive design

Innomatics – Frontend Engineering Intern | *6 Months (2022)*

- Intensive training on React performance and modern web standards

IEEE Training – Frontend Development Intern | *2022*

- Focused on modern web standards and team collaboration workflows

---

Projects

MIED Platform – Enterprise Multi-National Platform

- Developed a multi-language system using i18next with optimized global state management for high performance.
- Implemented payment integrations with Banque Misr, Stripe, Paymob, including subscription package management.
- Added advanced features: PDF generation, SEO optimization, and dynamic data visualization.

- Tech stack: React.js, Next.js, Redux Toolkit, Tailwind CSS, i18next, Payment APIs.
- **Live demo:** https://miedeg.com/

Mizzuu Travel Platform – Travel Booking Platform

- Developed a real-time booking system for trains, flights, hotels, buses, and tours using live data APIs.
- Built dynamic search, filtering, and multilingual interface for seamless user experience.
- Integrated real-time interactions and booking management with full frontend control.
- Tech stack: React.js, JavaScript, Tailwind CSS, i18n, Travel APIs.
- **Live demo:** https://matroshka-travel.com/

M&R Elite Store – E-commerce Retail Engine

- Developed a full-featured E-commerce platform with complex shopping cart, category filtering, and product management.
- Implemented smooth animations and interactive UI using GSAP & Framer Motion.
- Integrated multi-language support and payment gateways for seamless checkout experience.
- Tech stack: React.js, Redux Toolkit, i18next, GSAP, Tailwind CSS, SASS
- **Live demo:** https://www.mr-elite.com/

Gharam Financial ERP – ERP for Finance & Inventory

- Developed an offline-first enterprise platform for managing bookings, attendance, discounts, expenses, and reporting with large-scale data tables.
- Built real-time dashboards and comprehensive reporting tools for administrative control.
- Ensured offline functionality and data synchronization for seamless user experience.
- Tech stack: React 18, Dexie, MUI DataTables, Redux Toolkit, Tailwind CSS

Advanced LMS Dashboard – Educational Management System

- Developed an interactive LMS dashboard for managing courses, teachers, and exams with drag-and-drop scheduling.
- Built data visualization tools and interactive calendars for real-time course management.
- Enabled full platform control over users, schedules, and assessments for administrators.
- Tech stack: Next.js 16, TypeScript, ApexCharts, FullCalendar, Tailwind CSS.

Smart POS System – Retail Management System

- Real-time inventory tracking, multi-format data export, keyboard-driven efficiency
- **Tech:** React 18, Material UI, AntD, XLSX & CSV Export, Hotkeys, Formik & Yup

Medical Landings – Landing Pages Suite

- 20+ optimized landing pages for user engagement and SEO
- **Tech:** Responsive, SEO Suite, Semantic UI

Education

B.Sc. Computer Science – Kafr El-Sheikh University | 2024 | GPA: 3.5/4.0

Focus: Software Engineering

Certifications

- **English Language Course** – UCCD Kafr El-Sheikh | 2023
- **Front-End Development Training** – IEEE | 2022
- **Front-End Developer Certificate** – Udemy | 2020
