## PROFILE

---

Ahmed is Front-End Developer with over 1 year of experience in developing web applications. I have a strong background in HTML, CSS, and JavaScript, which has enabled me to create visually interesting and interactive webpages. I have experience in developing user interfaces, creating responsive designs, and optimizing web experiences for different platforms. I worked with framework React.js. My expertise also expands to debugging, troubleshooting, and testing. I have a passion for learning new technologies and programming languages to stay ahead of the curve. I am a team player who values collaboration and communication.
